

# #ContraceptionChecklist resource pack

# Introduction

Contraception helps to prevent unwanted pregnancies. There are many different methods of contraception from long-acting reversible methods such as coils (IUS/IUDs) to condoms.

Everyone is different and not every contraception option will suit all. This campaign is aimed at raising awareness of the different methods available, enabling individuals to make an informed decision as to their choice.

The designs are based on feedback from our service users, and other members of our local community, which highlighted the want of a contraception checklist to help inform their contraception choice.

The assets and messages within this pack are designed to be used to support your own sexual health messaging.

**#ContraceptionChecklist**

## Get involved

We would love your support to spread the messaging regards contraception options and have created a range of materials, including social media assets and posters, that you can use alongside your own sexual health messaging.

There are graphics available to download and we have included some suggested messaging that you can use to accompany posts and edit to include your own information e.g. free condom schemes, sexual health drop-ins etc.

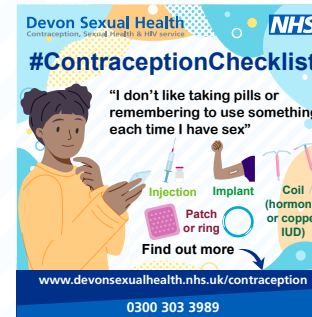

Please feel free to add emojis.

# Social media

## Shared images

We have created 9 images to share with messaging.

Some example post copy is supplied on the next pages, or do feel free to use these posts to support your own messaging.

## Suggestions for social media posts

Condom? Coil? Combined pill? There's lots of contraception options. Find all you need to know to make the right choice for you:  
<https://ow.ly/sVnT50SkKFg>

Want to know more about contraception? Long-acting reversible contraception methods can remain effective for a long time and include #implants #injections and the #coil. Find out more here:  
<https://ow.ly/sVnT50SkKFg>

First date? Hair✔ Nails✔ Contraception?  
If you want to know the right contraception choice for you, you can find out all about the different types here:  
<https://ow.ly/sVnT50SkKFg>

Checking your contraception options? A contraceptive implant can prevent pregnancy for up to three years and is easily reversed. Find out more here:  
<https://ow.ly/sVnT50SkKFg>

Not sure which contraception is right for you? Talk to our team on 0300 303 3989 or check out our website for info on all the options available →  
<https://ow.ly/sVnT50SkKFg>

Want contraception and protection against STIs? Condoms, if used correctly, can protect you against infections and unwanted pregnancies. Find out more here:  
<https://ow.ly/sVnT50SkKFg>

Do you want contraception you don't have to think about? Long-acting reversible contraception methods may be the best for you. Find out more about your contraception options here: <https://ow.ly/sVnT50SkKFg>

Want to learn more about your contraception options? Long-acting reversible methods are extremely effective and include [#implants](#), [#injections](#) and the [#coil](#). You can find out more here: <https://ow.ly/sVnT50SkKFg>

On the combined pill or patch? You can control when your period comes. Talk to one of our team or find out more here: <https://ow.ly/sVnT50SkKFg>

The contraceptive pill, patch and vaginal ring work by releasing hormones. You can find out more about your [#ContraceptionChoices](#) here: <https://ow.ly/sVnT50SkKFg>

NHS

### #ContraceptionChecklist

When it comes to contraception,  
I don't like taking pills  
or remembering to use  
something each time  
I have sex.

Contraception injection

Vaginal ring or patch

Coil (hormonal or copper IUD)

Contraception implant

Combined or progestogen-only pill

Condoms
